Dear Mr. Shelor:

SUBJECT: YUCCA MOUNTAIN SITE VISITS

I am transmitting reports on two visits to the Yucca Mountain candidate repository site and vicinity in April and in May 1994.

The first of these site visits, which took place on April 19 and 20, included representatives of the U.S. Nuclear Regulatory Commission, U.S. Department of Energy (DOE), State of Nevada, and Clark and Nye Counties as participants. This visit provided an opportunity for NRC staff to become familiar with ongoing site characterization activities.

The second site visit, which took place on May 2 through May 5, included representatives of the Advisory Committee on Nuclear Waste and members of the Nuclear Waste Technical Review Board, as well as NRC, DOE, State and County representatives. The purpose of this visit was to discuss DOE's progress in the characterization of faults and fracture networks at Yucca Mountain, and for DOE to apprise the NRC staff of the current understanding of stratigraphic and structural data collected along the path of the Exploratory Studies Facility, prior to initiation of large-scale tunnel boring activities.

A written response to this letter or to the enclosed reports is not required. If you have any questions, please call Philip Justus of my staff at (702) 388-6125.

Sincerely,

Joseph J. Holonich, Chief
