Tì	The following corrective actions were verified to be complete:					
1.	1. REECo sent a new transmittal No. 1A-03-191CND to the M&O. The new package included shotecrete placement logs that were traceable to acceptable fibercrete test results and to purchase orders that are traceable to verify that the product placed and tested was fibercrete. The M&O accepted the transmittal.					
2.	. REECo sent a new transmittal No. 1A-03-19 new package contains a fibercrete mix design bromide. Documentation supporting the effe construction water on concrete, shotcrete, gro was included within the submittal package (s Elkins to Foust, TWS-EES-13-LV-04-93-06). transmittal.	n that includes lithium ects of lithium bromide in outing and mortar quality see letter dated 4/9/93,
