ACCEPTANCE OF THE RAYTHEON SERVICES NEVADA (RSN) ORGANIZATION PROCEDURE AND QUALITY ASSURANCE REQUIREMENTS AND DESCRIPTION (QARD) IMPLEMENTATION MATRIX FOR DOE/RW-0333P, REVISION 0 (SCP: N/A)

The Yucca Mountain Quality Assurance Division (YMQAD) has accepted the RSN responses to the review comments related to the above document. Based on the initial review and response acceptance, it is concluded the RSN Quality Assurance (QA) Program, inclusive of Quality Assurance Plan 1.1 (Y), Revision 3, "Organization," meets the requirements of DOE/RW-0333P, Revision 0. YMQAD has indicated acceptance of the RSN QARD implementation matrix by placing a "y" in the acceptance field of the Requirements Traceability Network (RTN) data base. This baseline acceptance is effective as of December 20, 1993. YMQAD acceptance status of future updates will be indicated on the RTN data base.

Based on the assigned work scope, RSN implementation of the QARD is acceptable for use on the Yucca Mountain Site Characterization Project. RSN's QA Program compliance and effectiveness will be assessed during the QA audit/surveillance, and annual performance evaluations. The proposed exception to QARD Section 18.2.21C. has been approved based on the RSN alternative approach which is in compliance with ASME NQA-1, 1989 requirement III.2S-3 4.2 :1s & 2s.

If you have any questions, please contact Catherine E. Hampton at 794-7973.

Richard E. Spence, Director
