**EXECUTIVE SUMMARY FOR TOTAL SYSTEM PERFORMANCE ASSESSMENT (TSPA)
MEETING, LAS VEGAS, 18-20 NOVEMBER 1991,
CONTRACT #DE-AC01-91RW00134**

Enclosed please find a draft version of the subject Executive Summary. In your announcement of this meeting, you indicated the need for an Executive Summary within 30 days following the close of the meeting. The applicable Work Authorization Schedule specifies that this is to be a draft report for DOE review. The subject Executive Summary is written for the higher-level manager who needs to know the status of Total System Performance Assessment in the Program, but does not need to know the technical detail of the modeling done. No results were reproduced for this Executive Summary because the calculations presented at the TSPA meeting were preliminary and not yet reviewed for clearance as per applicable Yucca Mountain Project Office procedures. A technical report on the results of the 1991 TSPA modeling activity will be prepared by the major participants, and is scheduled for completion in the spring of 1992.

If you have any questions, please do not hesitate to call either myself at 4-1804, or the primary author of the Executive Summary, Abe Van Luik at 4-7441.

L. Dale Foust, Manager
Nevada Site Manager
Management & Operations
