SUBJECT: ACCEPTANCE OF WCAP-16045-P, "QUALIFICATION OF THE  
TWO-DIMENSIONAL TRANSPORT CODE PARAGON" (TAC NO. MB8040)

Dear Mr. Sepp:

By letter dated March 7, 2003, Westinghouse submitted for NRC staff review Topical Report (TR) WCAP-16045-P, "Qualification of the Two-Dimensional Transport Code PARAGON." It also requested, consistent with the NRC's Office of Nuclear Reactor Regulation Instruction LIC-500, "Processing Requests for Review of Topical Reports," that the NRC provide an estimate of the review hours, as well as target dates for any requests for additional information (RAIs) and for the completion of the safety evaluation for the TR.

The NRC staff has performed an acceptance review of the WCAP-16063-P. We have found that the material presented is sufficient to begin our comprehensive review. The staff expects to issue RAIs by June 30, 2003, and complete its review by February 31, 2004. It is estimated that the review will require approximately 130 staff hours.

Section 170.21 of Title 10 of the *Code of Federal Regulations* requires that TRs are subject to fees based on the full cost of the review. You did not request a fee waiver; therefore, staff hours will be billed accordingly. To enable us to complete this review on schedule, close and frequent communications between our technical staffs will be required.

Sincerely,
