ACCEPTANCE OF THE REYNOLDS ELECTRICAL & ENGINEERING CO., INC'S (REECO)
QUALITY ASSURANCE REQUIREMENTS AND DESCRIPTION (QARD) IMPLEMENTATION MATRIX
(SCP: N/A)

The Yucca Mountain Quality Assurance Division (YMQAD) has accepted the REECO responses to the YMQAD review comments related to the QARD. Based on the initial review and response acceptance, it is concluded that REECO's Quality Assurance (QA) program, inclusive of Management Control Procedure MC-01.0, Revision 3, "Organization," meets the requirements of DOE/RW-0333P, Revision 0. REECO had no exceptions taken to the QARD. YMQAD has indicated acceptance of the REECO QARD implementation matrix by placing a "y" in the acceptance field of the Requirements Traceability Network (RTN) database. This baseline acceptance is effective as of March 11, 1994. YMQAD acceptance status of future updates will be indicated on the RTN database.

Based on the assigned work scope, REECO implementation of the QARD is acceptable for use on the Yucca Mountain Site Characterization Project. REECO's QA program compliance and effectiveness will be assessed during the QA audit/surveillance and annual performance evaluations.

If you have any questions, please contact Catherine E. Hampton at 794-7973.
