Dear Mr. Holonich:

Enclosed are all remaining references cited in the subject report for which copyright clearances have been acquired. With this transmittal, all cited references in the subject report have been sent to the U.S. Nuclear Regulatory Commission (NRC) (Reference 1). These references provide the technical basis that the Yucca Mountain Site Characterization Project Office (YMPO) used to develop the report. The data packages used by project scientists to develop the technical basis for the report are identified in the YMPO Technical Data Catalog (TDC).

The March 1993 edition of the TDC (Reference 2) contains a complete itemization of the data packages that are available from erosion studies. If the NRC wants to acquire any data packages, the NRC should identify the data packages they want in the catalog and request them in writing.

The affected counties have the option of acquiring this package of references by contacting Ms. Ardyth M. Simmons, YMPO Technical Data Manager at (702) 794-7998 or writing to this address: YMPO Research and Study Center, 101 Convention Center Drive, Suite P-106, Las Vegas, Nevada 89109.
