CORRECTIVE ACTION DOCUMENT STATUS REPORT FOR THE MONTH OF  
JANUARY 1996 (SCPb: N/A)

The monthly status report of the Office of Civilian Radioactive  
Waste Management Corrective Action Requests (CAR), Deficiency  
Reports (DR) and Performance Reports (PR) has been reformatted to  
include the following:

Enclosure 1 is now a list of the significant program  
deficiencies that are currently open.

Enclosure 2 is a series of summary tables for management,  
constructed by type of deficiency document rather than  
the issuing organization. The tables now include  
Nonconformance Report (NCR) information.

Enclosure 3 is a list by organization, showing your  
organization's current action status pending.

It is requested that the responsible individual in your  
organization review the reported information for any action.  
Any discrepancies should be promptly reported to the Office  
of Quality Assurance.

If you have any questions, please contact either Robert B.  
Constable at (702) 794-7945 or Deborah G. Sult at  
(702) 794-7777.
