Dear Mr. Holonich:

This letter is to inform you that the Office of Civilian Radioactive Waste Management (OCRWM) has issued Revision 3 of the OCRWM Quality Assurance Requirements and Description (QARD) DOE/RW/0333P. The purpose of this revision is as follows:

1. Expand the scope to include storage casks, transportation casks, and multi-purpose canisters (MPC).
2. Clarify that activities associated with the interface between the Mined Geological Disposal System and casks/MPCs are not within the scope of the QARD, Appendix B.

QARD Revision 3 has not reduced any Quality Assurance program commitments previously made to the Nuclear Regulatory Commission.

If you have any questions or require additional information, please contact either Robert W. Clark at (202) 586-1238 or Richard E. Spence at (702) 794-7504.

Sincerely,
