OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Please,

* Focus the rulemaking on better ISOLATING nuclear waste from the public and the

environment rather than dispersing deliberately;

* PROHIBIT RELEASE of radioactive wastes and materials from nuclear power and weapons

into the marketplace for unrestricted or conditional uses;

* Prevent additional radiation exposures rather than "justifying" them with computer

codes and dose modeling created by nuclear advocates. Since there is no safe dose of

ionizing radiation, we accept NO dose above naturally occurring

background and voluntary

exposures for our own personal benefit.

* Stop poisoning us and the recycling industries with ANY level of radioactive

contamination from nuclear power and weapons fuel chain activities.
