

## Department of Energy

Washington, DC 20585

DEC 28 1995

Joseph J. Holonich, Acting Deputy Director  
Division of High-Level Waste Management  
Office of Nuclear Material Safety  
and Safeguards  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Dear Mr. Holonich:

This letter is to inform you that the Office of Civilian Radioactive Waste Management has issued Revision 5 of the OCRWM Quality Assurance Requirements and Description (QARD) DOE/RW-0333P (enclosure 1). The purpose of this revision is to include several changes requested by various Affected Organizations.

Reductions in Quality Assurance (QA) program commitments previously made to the U.S. Nuclear Regulatory Commission are identified in enclosure 2.

Since the QARD sections changed by this revision represent new baselined QA requirements, all previous commitments associated with the revised QARD sections are superseded.

If you have any questions or require additional information, please contact either Robert W. Clark at (202) 586-1238 or Richard E. Spence at (702) 794-7504.

Sincerely,

Ronald A. Milner, Director  
Office of Program Management  
and Integration  
Office of Civilian Radioactive  
Waste Management
