Christine/Mark,

I can support the call from home on Friday. (I've scheduled the day off because the Friday before Memorial Day weekend is one of the two worst days of the year to try to drive to Annapolis from D.C. after noon.)

To make things simple, my home e-mail is _____ and my home phone is _____ I can call into a bridge if you wish.

ET 10

Steve

Christine/Mark:

I (and some of my guys) will be around Friday.

Regards,

Gery Wilkowski

To All -

We (MEB) would like to have a meeting to discuss this issue with y'all ... on Friday afternoon if at all possible. Unfortunately i will not be around tomorrow (on leave) and on Thursday and Friday (AM) i have meetings all day. By reply to this e-mail could you please indicate to Christine Briggs your availability on Friday afternoon ... we need a 1 hour window to figure out how to best address NRR's concerns.

Christine - when you get input from everyone could you (pleaseplease please please please) get us a conference room and a bridge line for Gery and Richard? Thanks

Oh - i'm available anytime after 1PM.

Attached you will find some questions of clarification from Gery Wilkowski on this matter.

✓ Mike Johnson just called and wanted to discuss support for their Davis Besse significance determination and the funding situation. Based on our conversations of yesterday, I informed him that we want to further discuss and understand scope of the probabilistic analysis. Mark, will you please set up a meeting as soon as possible.
