Subject: nuclear waste

June 6, 2003 (3:06PM)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

DOCKET NUMBER
PROPOSED RULE 20
(68 FR 09595)

Template = SECY-067

SECY-02

For the safety of all Americans, please adopt the Sierra Club policy suggestions for dealing with nuclear waste:

- * Focus the rulemaking on better ISOLATING nuclear waste from the public and the environment rather than dispersing deliberately;
- * PROHIBIT RELEASE of radioactive wastes and materials from nuclear power and weapons into the marketplace for unrestricted or conditional uses;
- * Prevent additional radiation exposures rather than "justifying" them with computer codes and dose modeling created by nuclear advocates. We oppose "dose-based" or "risk-based" standards.
- * Since there is no safe dose of ionizing radiation, we accept NO dose above naturally occurring background and voluntary exposures for our own personal benefit.
- * Stop poisoning us and the recycling industries with ANY level of radioactive contamination from nuclear power and weapons fuel chain activities.
