OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Dear Secretary-

Please use the humanity God gave you when you were born. It's bad enough to use nuclear waste in projectiles in war against an enemy and expose our own troops to radioactive toxic poison, as we have done with the depleted uranium arms in the Balkans, Afghanistan, and Iraq, But!

137

It is beyond human dignity to blend radioactive waste into consumer goods that our own people including MOTHERS and BABIES will be poisoned by.

The cancers and birth defects and still born babies that have already resulted from this evil shortsighted scheme would be heavy on your soul when you face the final judgement.

Stop the madness of recycling nuclear waste. Promote wind, solar and safe renewable energy by eliminating this trillion dollar give-away to the nuclear industries.

Dave Channon
