Subject: Uses and Disposition of Nuclear Waste

June 9, 2003 (8:57AM)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

To Whom It May Concern:

I am strongly opposed to allowing any dose level of any nuclear waste to be releases into regular commerce or into regular garbage dumps.

Nuclear waste should only go to licensed radioactive paste dumps which are closely regulated to prevent release of nuclear waste into the environment.

Also, I believe the NRC should report on and recapture all the nuclear wastes they have already deregulated over the years an accurately report as to whether any harm has come from this policy.

Sincerely,
Art Hanson
