

DOCKET NUMBER
PROPOSED RULE PR 20

DOCKETED
USNRC

From: Bonda Lee-Cunningham <blc@fpwa.org>
To: <secy@nrc.gov>
Date: Mon, Jun 9, 2003 9:22 AM
Subject: Release of nuclear waste

(68FR09595)

June 9, 2003 (8:57AM)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

This kind of waste should NOT be released with regular waste nor should it be used for things that millions of people come in contact constantly, like road and building materials. There's a reason why x-ray technicians leave the room before conducting treatments and diagnostic tests on patients: constant exposure is not good for you. To build it into our infrastructure would ultimately subject tremendous numbers of people to long-term risk that they cannot avoid. CONTAIN IT.
