ADJUDICATIONS STAFF

RE: June 30th 2003 Deadline for Comments on
Nuclear Power and Weapons Waste

Please insert to the public record on this issue:

1. No release of radioactive waste/material into the marketplace
2. Federal priorities should be to spend my tax dollars to isolate nuclear waste from the public and environment not for any new research or production of nuclear weapons or to re-introduce nuclear waste via material for commerce
3. No level of radioactivity from nuclear power & weapons fuel chain activities is acceptable
4. No dose above naturally occurring background and voluntary exposures for our own personal benefits.

Voter and Taxpayer since 1973
