

DOCKET NUMBER
PROPOSED RULE PR 20
(68FR09595)

180

Subject: Nuclear Waste

Please put me on your list of citizens who oppose the use of nuclear waste for anything--including storage. Surely we have ample enough realize to know that nuclear energy is a lose-lose power source. This discussion about how to use the waste is so outrageous it would be funny if it wasn't so deadly. Thanks for your attention to my letter.
