RULEMAKINGS AND
ADJUDICATIONS STAFF

Since no safe disposal has been found for nuclear waste - citizens demand you cease and dissist from processes that create such waste. We certainly do not want any new rules that say it is legal to poison everyone a little bit! Geraldine Gamburd, Prof. of Anthropology.

We citizens demand that nuclear wastes not be admitted into our health stream. We will not accept a rewriting of the rules to poison us ever a bit more.

Sincerely yours,
Geraldine Gamburd
