Subject: nuclear power and weapons waste

June 13, 2003 (4:06PM)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

I wish to express my opinion on how much nuclear power and weapons waste is allowed in unrestricted or restricted commercial daily use and in local landfills.

1. Focus the rulemaking on better ISOLATING nuclear waste from the public and the environment rather than dispersing deliberately.
2. PROHIBIT RELEASE of radioactive wastes and materials from nuclear power and weapons into the marketplace for unrestricted or conditional uses.
3. PREVENT additional radiation exposures rather than 'justifying' them with computer code and dose modeling.
4. I OPPOSE 'dose-based' or 'risk-based' standards. I ACCEPT 'NO-DOSE' standards above naturally occurring background and voluntary exposure for our own personal benefit.
5. STOP POISONING US and the recycling industries with ANY level of radioactive contamination from nuclear power and weapons fuel chain activities.

Signed 06/13/03
