

June 17, 2003

Mr. F. William Etzel  
200 Technology Blvd.  
BVPS, SEB-3  
Shippingport, PA 15077

Dear Mr. Etzel:

Per your request, enclosed are two compact disks containing the Level 1, Revision 3i Standardized Plant Analysis Risk (SPAR) models for the Beaver Valley Power Station Units 1 and 2 (Beaver Valley 1 and 2) and the SAPHIRE 6.75 suite of probabilistic risk assessment (PRA) computer codes. Also enclosed are copies of the user's manual for the Beaver Valley 1 and 2 SPAR models. The SAPHIRE code suite is required to perform analyses with the Revision 3i SPAR model. Both of these software packages are in the form of executable files that can be run directly from the compact disk. These items are for your organization's use only and are not to be distributed further without the consent of the NRC. Also please note that the information contained in these SPAR models is considered sensitive and should be treated accordingly.

These software packages are provided to facilitate your participation in our onsite QA review of the SPAR models for Beaver Valley 1 and 2, currently scheduled for July 2003. At that time, the Revision 3i ("i" denotes "interim") SPAR models for Beaver Valley 1 and 2 will be reviewed with your PRA staff and benchmarked against your PRA models for these plants. Until this review and benchmarking have been conducted and the SPAR models revised to reflect the results of the review, these models are considered to be interim, and should be used by your staff analysts with appropriate discretion.

Questions about these models should be directed to Mr. Robert Buell of the Idaho National Engineering and Environmental Laboratory (INEEL) at (208) 526-9400 (buelrf@inel.gov). Questions about the SAPHIRE code suite should be directed to Mr. Ted Wood, INEEL, at (208) 526-8729 (stw@inel.gov). Comments and suggestions may also be directed to either of these gentlemen or to Dr. Patrick O'Reilly, NRC project manager for SPAR model development, at (301) 415-7570 (pdo@nrc.gov).

If you are interested in receiving on-going technical support for SAPHIRE, you are invited to join the SAPHIRE Users' Group. Mr. John Schroeder, INEEL, at (208) 526-8755 (roe@inel.gov) can provide more details about the group and the services offered.

Due to the potential sensitivity of the information contained in the Enclosures, they are not publicly available.

Sincerely,

/RA/

Scott F. Newberry, Director  
Division of Risk Analysis and Applications  
Office of Nuclear Regulatory Research

Enclosures: As stated

cc: D. Collins, NRR/LPDI-1
