

**ATTACHMENT 3**

**LETTER TO: MR. KENNETH F. PLUMB, SECRETARY**

**FROM: SOUTH CAROLINA DEPARTMENT OF ARCHIVES AND  
HISTORY (SHPO)**

**DATED: OCTOBER 20, 1972**

South Carolina Department of Archives and History  
1430 Senate Street  
Columbia, S.C.

P. O. Box 11,188  
Capitol Station 29211

October 20, 1972

Mr. Kenneth F. Plumb  
Secretary  
Federal Power Commission  
Washington, D. C. 20426

Dear Mr. Plumb:

In reference to the new license for South Carolina Electric and Gas Company's Project No. 1894 including a proposal to construct a pumped storage development, we have determined that no adverse effects to historic properties will result from the project.

As we indicated in earlier correspondence pertaining to environmental impact of Project No. 1894, the only historically important places recorded by us in this area are the Davis Plantation (which is on the National Register of Historic Places) and two properties which are listed on our statewide survey of historic places: Fonti Flora and Monticello Church.

As South Carolina's State Liaison Officer for Historic Preservation, I appreciate the exceptionally fine cooperation of the South Carolina Electric and Gas Company in protecting the environmental quality of the project area insofar as historical aspects are concerned. Not only has SCE&G been diligent in supplying our Historic Preservation Division with the necessary statistics and map data, but the company has also been cooperative and generous in relocating and marking five small cemeteries in the area. In fact, we like to point to this particular project as a good example of coordinated planning with industry to protect environmental quality.

Sincerely,

Charles E. Lee  
State Liaison Officer  
for Historic Preservation
