Subject: Nuke Waste to Make Zippers, Toys, Playgrounds?

DOCKETED
USNRC

Sierra Club is suggesting a 6th choice-- they are asking NRC to report on and recapture all the nuclear wastes they have already deregulated over the years, since they claim no harm has come from it. I agree with them.

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

NIRS is telling NRC to

- * Focus the rulemaking on better ISOLATING nuclear waste from the public and the environment rather than dispersing deliberately;
- * PROHIBIT RELEASE of radioactive wastes and materials from nuclear power and weapons into the marketplace for unrestricted or conditional uses;
- * Prevent additional radiation exposures rather than "justifying" them with computer codes and dose modeling created by nuclear advocates. We oppose "dose-based" or "risk-based" standards.
- * Since there is no safe dose of ionizing radiation, we accept NO dose above naturally occurring background and voluntary exposures for our own personal benefit.
- * Stop poisoning us and the recycling industries with ANY level of radioactive contamination from nuclear power and weapons fuel chain activities.
