

Department of Energy
Washington, DC 20585

NOV 8 1990

Robert M. Bernero, Director
Office of Nuclear Material
Safety and Safeguards
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Bernero: *Bb*

As you are aware, on July 16, 1990, the Office of Civilian Radioactive Waste Management instituted an interim reorganization. The reorganization received final approval on October 11, 1990. In accordance with the Programmatic Agreements between our offices, this letter is to notify the Nuclear Regulatory Commission (NRC) staff that the contact persons for this office have been changed.

The Office of Systems Integration and Regulation has been replaced with the Office of Systems and Compliance. As the Acting Associate Director for this new office, Dwight Shelor is the primary contact between the Office of Civilian Radioactive Waste Management and the NRC staff. Linda Desell is the Acting Branch Chief for Regulatory Integration. This branch will be assuming the responsibilities of the former Licensing Branch.

All correspondence or telephone contact from the NRC should be directed to either Dwight Shelor or Linda Desell, as appropriate. Correspondence received by the NRC from the Department of Energy and signed by either Mr. Shelor or Ms. Desell should be considered official DOE correspondence.

If you have any questions regarding these arrangements, please call me at 586-6850.

Sincerely,

John W. Bartlett, Director
Office of Civilian Radioactive
Waste Management
