Subject: controlling and disposition of waste materials

June 19, 2003 (10:08AM)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

To the Secretary of the NRC:

This is a comment on controlling and disposition of waste materials.

All steps toward deregulation and so-called recycling of radioactive waste should be strongly opposed. Even low-level radioactivity is harmful to all living beings. Please protect our environment and our children by continuing the strictest monitoring, control and containment of all radioactive materials including low-level waste.

Thank you,

Laurence Kirby
