

June 20, 2003

MEMORANDUM TO: John R. Tappert, Chief
Environmental Section
License Renewal and Environmental Impacts Program
Division of Regulatory Improvement Programs
Office of Nuclear Reactor Regulation

FROM: Barry Zalcmán, Senior Program Manager **/RA/**
Environmental Section
License Renewal and Environmental Impacts Program
Division of Regulatory Improvement Programs
Office of Nuclear Reactor Regulation

SUBJECT: FORTHCOMING PUBLIC SCOPING MEETING TO DISCUSS UPDATE
TO THE GENERIC ENVIRONMENTAL IMPACT STATEMENT FOR
LICENSE RENEWAL OF NUCLEAR PLANTS, NUREG-1437

DATE AND TIME: July 15, 2003
7:00 p.m. - 10:00 p.m.

LOCATION Hilton-Anaheim
777 Convention Way
Anaheim, CA 92802

CATEGORY 3*: This is a Category 3 Meeting. The public is invited to participate in this meeting by providing comments and asking questions throughout the meeting. A portion of the meeting will be devoted to presentations by members of the public.

PURPOSE: To inform the public that the NRC is planning to prepare an environmental impact statement (EIS), which will be an update to NUREG-1437 "Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants" (May 1996) and its Addendum 1 (August 1999). This meeting will provide stakeholders and members of the public an opportunity to participate in the environmental scoping process as defined in 10 CFR 51.29. The GEIS and Addendum 1 are available at the NRC Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland or via the Internet at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1437>.

MEETING CONTACT: Barry Zalcmán
301-415-2419
BXZ@NRC.GOV

*Commission's Policy Statement on "Enhancing Public Participation in NRC Meetings," 67 *Federal Register* 36920, May 28, 2002

The meeting, which was noticed in the *Federal Register* (68 *Federal Register* 33209, June 3, 2003), will be preceded by an informal "open house" beginning one hour prior to the meeting for those who wish to attend. The "open house" will provide members of the public with an opportunity to talk informally, and individually, with NRC staff. Members of the public may register to present oral comments at this meeting by contacting Barry Zalcman at (800) 368-5642 ext. 2419 or via email to LRGEISUpdate@nrc.gov by June 30, 2003. Those who wish to make comments may also register at the meeting site within 15 minutes of the start of the meeting. If special equipment or accommodations are needed to attend or present information at the public meeting, the need should be brought to Mr. Zalcman's attention no later than June 30, 2003, to provide the NRC staff adequate notice to determine whether the request can be accommodated.

PARTICIPANTS:	<u>NRC</u>	<u>Public</u>
	F. Cameron	Those pre-registered or registered on-site
	J. Tappert	
	B. Zalcman et al.

**AGENDA FOR PUBLIC MEETING TO DISCUSS
ENVIRONMENTAL SCOPING PROCESS FOR
UPDATE TO THE GENERIC ENVIRONMENTAL IMPACT STATEMENT (GEIS)
FOR LICENSE RENEWAL OF NUCLEAR POWER PLANTS, NUREG-1437**

TUESDAY, JULY 15, 2003

Meeting Session* - 7:00 p.m. to 10:00 p.m.

- I. Welcome and Purpose of Meeting - 10 minutes (F. Cameron)
- II. Overview of Environmental Role in License Renewal Program - 10 minutes (J. Tappert)
- III. Overview of GEIS Update Project - 10 minutes (B. Zalcman)
- IV. Public comment - 2½ hours (as required) (F. Cameron)
- V. Closing/availability of transcripts, etc. (F. Cameron)

*The NRC staff will host an informal discussions one hour prior to the public scoping meeting session. No scoping comments will be accepted during the informal discussions. To be considered, comments must be provided either at the transcribed public meeting (see agenda, above) or in writing, as described in the attached *Federal Register* Notice.

UNITED STATES NUCLEAR REGULATORY COMMISSION
NOTICE OF INTENT TO PREPARE AN
ENVIRONMENTAL IMPACT STATEMENT
FOR THE LICENSE RENEWAL OF NUCLEAR POWER PLANTS
AND TO CONDUCT SCOPING PROCESS

In 1996 and 1999, the Commission amended its environmental protection regulations in 10 CFR Part 51, "Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions," to improve the efficiency of the environmental review process for applicants seeking to renew a nuclear power plant operating license for up to an additional 20 years. The final rules were published in the **Federal Register** on December 18, 1996 (61 FR 66546), and September 3, 1999 (64 FR 48507). The amendments are based on the analyses reported in NUREG-1437, "Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants" (May 1996) and its Addendum 1 (August 1999).

The GEIS, prepared by the U.S. Nuclear Regulatory Commission (NRC) staff and its contractors, summarizes the findings of a systematic inquiry into the environmental impacts of refurbishment activities associated with license renewal and the environmental impacts of continued operation during the renewal period (up to 20 years for each licensing action). The significance of environmental impacts were analyzed for each of nearly 100 issues. Thereafter, the NRC categorized which of these analyses could be applied to all plants and whether additional mitigation measures would be warranted for each environmental issue. Of the 92 issues analyzed, 69 issues were resolved generically, 21 require a further site-specific analysis that applicants are required to address, and 2 require a site-specific assessment by the NRC.

As part of its application to renew its operating license, an applicant submits a supplemental Environmental Report and the NRC staff develops a site-specific supplement to the GEIS and includes a recommendation for each license renewal application. The environmental protection regulations for any NRC licensing action is contained in 10 CFR Part 51 and may be viewed on the Internet at <http://www.nrc.gov/reading-rm/doc-collections/cfr/part051/index.html>. The license renewal process also includes a safety review and inspections prior to issuance of a renewed license.

In the introductory remarks to Appendix B to Subpart A of Part 51, "Environmental Effects of Renewing the Operating License of a Nuclear Power Plant," the Commission stated that, on a 10-year cycle, it intends to review the material in Table B-1 and update it, if necessary. The first 10-year cycle will end in 2006; the goal of the NRC staff is to complete this GEIS Update Project by the end of 2006.

The purpose of this notice is to inform the public that the NRC is planning to prepare an environmental impact statement (EIS), in this case it is an update to the GEIS, and to provide the public an opportunity to participate in the environmental scoping process, as defined in 10 CFR 51.29. This step is the initial opportunity for stakeholder participation in the GEIS update and it occurs before the NRC has determined results or recommendations for the update. The environmental review process for license renewal will continue under the current regulatory framework throughout the course of this effort. If, as a result of this scoping process, it is determined that an update is not necessary, then that result will be published in the **Federal Register** as well.

The GEIS and Addendum 1 to the GEIS were prepared pursuant to 10 CFR Part 51 and are available for public inspection at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, or from the Publicly

Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible at <http://www.nrc.gov/reading-rm/adams.html>, which provides access through the NRC's Public Electronic Reading Room (PERR) link. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR Reference staff at 1-800-397-4209, or 301-415-4737, or by e-mail to PDR@NRC.GOV. The GEIS, its Addendum 1, and its Supplements may also be viewed on the Internet at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1437/>. As indicated, the NRC prepares site-specific supplements to the GEIS for each license renewal application assessing the environmental impacts specific to that power plant location; these reports may be useful to scoping participants to understand the environmental review process and the environmental issues associated with the review for license renewal. The Supplements to the GEIS can also be viewed on the Internet in the context for each project and are listed by project at: <http://www.nrc.gov/reactors/operating/licensing/renewal/applications.html>. The update of the GEIS is a generic activity and, therefore, is not the appropriate forum to consider site-specific issues or concerns.

This notice is being published in accordance with the National Environmental Policy Act (NEPA) and the NRC's regulations found in 10 CFR Part 51. As a convenience, the NRC will also issue other communications (for example, press releases and newspaper ads) to notify the public, but this notice is the formal means to inform interested parties of their opportunity to participate in the scoping process.

In keeping with the framework outlined under NEPA, the NRC will first conduct this scoping process for the update to the GEIS and, thereafter, plans to prepare a draft addendum to the GEIS for public comment outlining the results of the NRC review. Participation in the

scoping process by members of the public and local, State, Tribal, and Federal government agencies is encouraged. The scoping process for the addendum to the GEIS will be used to accomplish the following:

- a. Determine whether the purpose and need for the update (the proposed action) is clear.
- b. Determine the scope of the addendum to the GEIS and identify whether there are any significant issues that should be analyzed in depth.
- c. Identify and eliminate from detailed study those issues that are peripheral or that are not significant or which have been covered by prior environmental review.
- d. Identify any environmental assessments and other EISs that are being or will be prepared that are related to, but are not part of the scope of the addendum to the GEIS being considered.
- e. Identify other environmental review and consultation requirements related to the proposed action.
- f. Indicate the relationship between the timing of the preparation of the environmental analyses and the Commission's tentative planning and decision-making schedule.
- g. Identify any cooperating agencies and, as appropriate, allocate assignments for preparation and schedules for completing the addendum to the GEIS to the NRC and any cooperating agencies.
- h. Describe how the addendum to the GEIS will be prepared including any contractor assistance to be used.

The NRC invites the following entities to participate in the scoping process:

- a. Any Federal agency that has jurisdiction by law or special expertise with respect to any environmental impact involved, or that is authorized to develop and enforce relevant environmental standards.

- b. Any affected State and local government agencies, including those authorized to develop and enforce relevant environmental standards.
- c. Any affected Indian tribe.
- d. Any person who requests or has requested an opportunity to participate in the scoping process.

In accordance with 10 CFR 51.26, the scoping process for an EIS may include a public scoping meeting to help identify significant issues related to a proposed activity and to determine the scope of issues to be addressed in an EIS. The NRC has determined that it is appropriate to conduct public meetings on the GEIS update early in the project to foster public participation. Since this is a generic environmental review activity, the NRC has elected to hold a public meeting in each of the four (4) NRC regions for the GEIS Update Project. The scoping meetings will be held at the following locations: July 8, 2003, DoubleTree-Atlanta Perimeter, 6120 Peachtree Dunwoody Road, Atlanta, GA 30328; July 10, 2003, Hilton-Oak Lawn, 9333 South Cicero Avenue, Oak Lawn, IL 60453; July 15, 2003, Hilton-Anaheim, 777 Convention Way, Anaheim, CA 92802; and July 17, 2003, Executive Conference Center at Bayside (adjacent to the DoubleTree-Bayside), 200 Mount Vernon Street, Boston, MA 02125. Each formal meeting will convene promptly at 7:00 p.m. with an NRC overview of the role of the GEIS in the license renewal process, the experience gained in its use, and criteria that may be used to consider changes. Each meeting is planned to last for three hours, as necessary, or until all members of the public have had an opportunity to present their views; therefore, the formal meeting may end prior to 10:00 p.m. Each meeting will be transcribed and will include (1) the overview by the NRC staff of the NEPA environmental review process, the proposed scope of the addendum to the GEIS, and the proposed schedule; and (2) the opportunity for interested government agencies, organizations, and individuals to submit comments or

suggestions on the environmental issues or the proposed scope of the addendum to the GEIS. A participant may elect to submit a detailed written statement for the record and provide a brief oral summary. In addition to the formal meeting, the NRC staff will host informal discussions for members of the public one hour before the start of the session at each location; general information on the NRC and related NRC programs will be available for meeting participants as supplies permit. No formal comments on the proposed scope of the addendum to the GEIS will be accepted during the informal discussions. To be considered in the scoping process, comments must be provided either at the transcribed public meetings or in writing, as discussed below.

Persons may register to attend or present oral comments at the meetings on the scope of the NEPA review by contacting Mr. Barry Zalzman, by telephone at 1-800-368-5642, extension 2419, or by e-mail to the NRC at LRGEISUpdate@NRC.GOV no later than June 30, 2003. Members of the public may also register to speak at the meeting within 15 minutes of the start of each session. Individual oral comments may be limited by the time available, and at the discretion of the meeting facilitator, depending on the number of persons who register. Members of the public who have not registered may also have an opportunity to speak, if time permits. Public comments will be considered in the scoping process for the addendum to the GEIS. Mr. Zalzman will need to be contacted no later than June 30, 2003, if special equipment or accommodations are needed to attend or present information at the public meeting, so that the NRC staff can determine whether the request can be accommodated.

Members of the public, whether or not they participate in the public meetings, may send written comments on the environmental scope of the GEIS Update Project to the Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, Mailstop T-6 D 59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and should cite

the publication date and page number of this **Federal Register** notice. Comments may also be delivered to Room T-6 D 59, Two White Flint North, 11545 Rockville Pike, Rockville, Maryland, from 7:30 a.m. to 4:15 p.m. during Federal workdays. To be considered in the scoping process, written comments should be postmarked by September 2, 2003. Electronic comments may be sent by e-mail to the NRC at LRGEISUpdate@nrc.gov. Electronic submissions should be sent no later than September 2, 2003, to be considered timely in the scoping process.

Comments will be available electronically and accessible through the NRC's PERR link at <http://www.nrc.gov/reading-rm/adams.html>.

At the conclusion of the scoping process, the NRC will prepare a summary of the determinations and conclusions reached, including the significant issues identified, and will send a copy of the summary to participants in the scoping process. The summary will also be available for inspection at the NRC PDR or through the PERR link. If necessary, the staff will then prepare and issue for comment the draft addendum to the GEIS, which will be the subject of a separate **Federal Register** notice, to report the results of the NRC's review. At this time, the NRC plans to conduct separate public meetings, at similar locations as the public scoping meetings, on the draft addendum to the GEIS. Copies of the draft addendum to the GEIS will be available for public inspection at the above-mentioned address, and one copy per request will be provided free of charge. After receipt and consideration of the comments on the draft, the NRC will prepare a final addendum to the GEIS, which will also be available for public inspection. Should the review indicate that one or more environmental issues enumerated in Appendix B to Subpart A of Part 51, "Environmental Effects of Renewing the Operating License of a Nuclear Power Plant," requires change, then the proposed and final rule amendments will accompany the draft and final addendum to the GEIS.

Information about the proposed action, the addendum to the GEIS, and the scoping process may be obtained from Mr. Zalcmán at the aforementioned telephone number or e-mail address.

Dated at Rockville, Maryland, this 27th day of May 2003.
