

DEPARTMENT OF ENERGY
Washington, DC 20585

March 8, 1994

Dear Program Participant:

Enclosed is a draft report outlining the steps the Office of Civilian Radioactive Waste Management proposes to take as a result of the discussions which took place at the August 10, 1993, workshop in Las Vegas, Nevada.

As you will recall, the stated purpose of the workshop was to develop a consultative process for stakeholder involvement in the program's direction and decision-making. Although no consensus was reached during the workshop on any one method for involving the public in the program, we do believe many excellent ideas were suggested and merited our careful consideration.

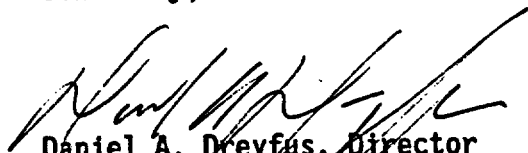

This report represents our analysis of the workshop discussion and identifies activities we believe will enhance the program's public involvement efforts. We would appreciate your reviewing this draft report and offering suggestions by Monday, April 15, 1994.

Please forward your comments to Allen Benson, U.S. Department of Energy, Office of Civilian Radioactive Waste Management, 1000 Independence Avenue SW, Washington, DC, 20585. If you prefer, you may also FAX your comments; the FAX number is (202) 586-7259.

After taking into account your suggestions, we will send the final report to Secretary of Energy Hazel R. O'Leary for her review and consideration.

I want to thank you for taking the time to review this report and for helping to make it a more useful and responsive document. I look forward to working with you in the future.

Sincerely,

Daniel A. Dreyfus, Director
Office of Civilian Radioactive
Waste Management
