Subject: radioactive waste

DOCKET NUMBER
PROPOSED RULE PR 20
68FR09595

I can't believe it's come to this.
The NRC needs to be told not to allow nuclear waste to be used in frying
pans?
in dental braces?
in IUDs?
The NRC is pushing for nuclear waste to be dispersed unregulated into
everyday commerce? Where has your common sense gone?
Do you have family or children that you care about?
How can you possibly think dispersing nuclear waste into everyday commerce is
safe?
I am at a total loss for words.
You should be PROHIBITING RELEASE
not allowing it for everyday use!!!!!!!!!!!!
