MAY 08 1989

Dear Ms. Schaaf:

Working from the membership listing Nancy McAvey sent me dated 12 April 1989, I have completed a further update including a reclassification of certain members. Please revise your records in accordance with the enclosed list and send me a copy of the revised printout. Address corrections may be made from the second enclosure.

The balance is now twelve producers vs a combined total of thirteen users and general interest. This satisfies Section 7.5 of the Regulations Governing ASTM Technical Committees. If necessary, we can invoke the provision of one vote per voting interest. The names on the mailing list are of participants in the task force activities who do not choose at this time to become ASTM members. Please clarify whether you and Bill Laing are to be included as voting members of the Subcommittee.

Thank you very much for your assistance in updating the membership list.

Sincerely,

Charles H. Peterson
Chairman, C26.13
