

June 24, 2003

Mr. Hawk Fann
P.O. Box 278
Tecopa, California 92389

Dear Mr. Fann:

Thank you for attending the U.S. Nuclear Regulatory Commission's (NRC) June 4, 2003, public meeting in Tecopa, California. We appreciate your participation in the meeting and were pleased to meet with you. The purpose of this meeting was to provide an overview of the NRC's role in the potential licensing of a geologic repository at Yucca Mountain, and to discuss ground-water, transportation, and security issues. As you requested, I am enclosing a copy of Yucca Mountain Review Plan (YMRP), NUREG-1804, Draft Final Revision 2. The NRC staff expects to issue Final Revision 2 later this year.

We have an important role to play in protecting the health and safety of the people and the environment. Because we are committed to building a long-term relationship with the residents of Inyo County, CA, we hope to return to Tecopa for future public meetings on other topics related to the proposed repository and NRC's role in ensuring public health and safety. We look forward to meeting with you again.

Sincerely,

/RA/

Janet R. Schlueter, Chief
High-Level Waste Branch
Division of Waste Management
Office of Nuclear Material Safety
and Safeguards

Enclosure: As stated
