

June 26, 2003

Mr. Henry A. Sepp, Manager
Regulatory and Licensing Engineering
Westinghouse Electric Company
P.O. Box 355
Pittsburgh, PA 15230-0355

SUBJECT: ACCEPTANCE OF WCAP-16078-P, REVISION 0, "WESTINGHOUSE BWR ECCS EVALUATION MODEL: SUPPLEMENT 3 TO CODE DESCRIPTION, QUALIFICATION AND APPLICATION TO SVEA-96 OPTIMA2 FUEL" FOR REVIEW (TAC NO. MB8908)

Dear Mr. Sepp:

By letter dated April 30, 2003, Westinghouse Electric Company submitted for NRC staff review Topical Report (TR) WCAP-16078-P, Revision 0, "Westinghouse BWR ECCS Evaluation Model: Supplement 3 to Code Description, Qualification and Application to SVEA-96 Optima2 Fuel." It also requested, consistent with the NRC's Office of Nuclear Reactor Regulation Instruction LIC-500, "Processing Requests for Review of Topical Reports," that the NRC provide an estimate of the review hours, as well as target dates for any requests for additional information (RAIs) and for the completion of the safety evaluation for the TR.

The NRC staff has performed an acceptance review of the TR. We have found that the material presented is sufficient to begin our comprehensive review. The staff expects to issue RAIs by January 15, 2004, and complete its review by June 30, 2004, and estimates that the review will require approximately 900 staff hours.

Section 170.21 of Title 10 of the *Code of Federal Regulations* requires that TRs are subject to fees based on the full cost of the review. You did not request a fee waiver; therefore, staff hours will be billed accordingly. To enable us to complete this review on schedule, close and frequent communications between our technical staffs will be required.

Sincerely,

/RA/

Brian Benney, Project Manager, Section 2
Project Directorate IV
Division of Licensing Project Management
Office of Nuclear Reactor Regulation
