**DOCKET NUMBER**  
**PROPOSED RULE PR 20**  
**68FR09595**

992

Mr. Secretary,

I would like to add my voice to the concerns expressed by the Sierra Club on the issue of disposal of spent and contaminated nuclear waster material into our environment. Please continue to monitor the amount and placement of these toxic substances, mandating that they are kept in a secure facility, designed and capable of retaining this material safely, far from our water and our children. Please do not ease containment guidelines for these toxic materials, our future is too important and we simply do not know enough.

Thank you.

Sincerely,

Amy Hatch-Winecka
