

TO: Nuclear Regulatory Commission,
Div. of Waste Mg. &
Office of Nuclear Material Safety & Standards
1717 H ST., N.W.,
Washington, D.C. 20555

FROM: Ronald K. Carroll,
Register No. 034781,
of Farmington Coerect Road Ctr,
1012 W. Columbia St.,
Farmington, Missouri 63640

SUBJECTS: Simple, Safe-Method of Neutronizing Nu-
clear Hazardous-Materials?

To begin, Siecs, 'Truth is stranger than Fiction,'
yet I DO HAVE the knowledge concerning
how to use a simple, yet VERY effective-
method to neutralize 'any' amount of
nuclear-radiation in a VERY short
period-of-time, Siecs!

This, Siecs, is ALL Lie, ALL out-sense!

Before anyone scoffs at the 'fore-
mentioned' subject-matter, think deep-
ly about the following true-stories to-
wit: For ones to speak in ignorance of
something ones know nothing of or
very little, thereof makes ones a fool!

Sir(s), as you've heard before, don't judge a book by its cover, holds true in the same area.

Sir(s), the 'reason' that I'm corresponding with the "Nuclear Regulatory Commission" is to, in-part, convey the 'impression' that this 'simple' (yet VERY effective) project-method is 'truly' "CONSTRUCTIVE" to mankind, and will benefit the environment, too!

This 'simple project-method' is NOT a Lark nor trifling matter, Sir(s)!

Sir(s), I 'truly' hope such will NOT be with your(s) reasoning(s) concerning my 'proposal' to reveal this means of neutralizing nuclear-waste materials! ETA!

Sir(s), I'm a novice, yet knowledge is NOT limited to just 'certain' persons, knowledge is all around humanity, etc!

Sir(s), I'm, thus willing to 'prove' what I'm 'presently, in-part, now, talking about in this correspondence, however, Sir(s), the 'simple' conditions I desire, are thus:

1) 'Via' A Federal Judge's Court-Order, ~~et al~~, that I be taken in Federal-Custody, by Federal-Agents', to a nuclear-testing Laboratory, (with 'outside'-area for testing, too, and must), to conduct this 'simple' experiments, and,

2) Once there or before I get there, that 'vix' fast, etc. delivery, 'certain' items; (i.e. simple, no heavy items, no bulky, neither, no electrical, no chemicals, etc), be 'ordered', (as I've the information where to obtain these items), to-date/up-to-date resources; and,

3) Results seen in a "VERY" short time-frame, 3-wks; plus or minus in just days or a wk; &)

4) That 'before' this knowledge/information is given-out/proved in the experiment(s), that a 'compromise' be 'pre-worked-out' concerning a 'commutation' of my 'present' sentence/judgment-structure of non-violent charges; (i.e. no, though, detainers), this 'simple-thing can easily' be accomplished by an agreement of some sorts between the Missouri-Gov't and the U.S.-Gov't OFFICIALS!

Note: Even, over a period-of-time, inmates have been given their 'freedoms' by doing 'certain' things for the Gov't in exchange for Liberty!

→ I, too, have 'other' things the U.S.-Gov't, et al., may be interested, therein, also, since.

VERIFICATION:

STATE: MISSOURI . . . : AVOWED, AT-LAW.
COUNTY: ST. FRANCIS.

I, Ronald K. Crawford, Register No. 034781,
AVOWS, AT-LAW, that He has subscribed to the
'above-mentioned', etc., and that He 'duly' testify
that Such is true and Factural, to the 'Best'
of His 'present' Knowledge, Information and
Belief, and Said/Done, etc., in 'good-Faith!'

ALL of the 'above-mentioned', etc., though
NOT Limited, thereto!

Witness My Hand } Ronald K. Crawford,
In Pro. Per. } Signature of Petitioner.

Reg. No. 034781!

Dated this 29th Day of March, 1997, in St.
Francis County, Farmington, Missouri.

Further Petitioner saith not.

I, Ronald K. Crawford, Reg. No. 034781, certify that
this is a 'True-copy!' } Ronald K. Crawford, Reg.
No. 034781! Avowed, AT-LAW!
