SUBJECT: SORPTION MODELING PROJECT

Dear Mr. Ruegger:

By your letter dated May 3, 1996, an invitation was extended to the U.S. Nuclear Regulatory Commission (NRC) to participate in a PAAG Sorption Modeling Project to investigate the potential of mechanistic sorption models. The NRC staff has reviewed the Project information in light of our current high-level waste program commitments and recent budgetary constraints. As a result, the NRC must decline its participation in the proposed project. I would, however, like to take this opportunity to thank you for your invitation and hope that you will consider the NRC for possible participation in future projects.

Sincerely,

[Original signed by:]

Margaret V. Federline, Acting Director
Division of Waste Management
Office of Nuclear Material Safety and
Safeguards
