1895 Preston White Dr., Suite 300
Reston, Virginia 22091-4369

Dear Dr. Brown:

I have sent some information, in which you expressed an interest, under separate cover.

With regard to your offer to give a semi-formal briefing to the NRC staff, Mr. Youngblood has asked me to coordinate a mutually acceptable time and subject. If at all possible, such a briefing should be scheduled to permit attendance by staff members of the Center for Nuclear Waste Regulatory Analysis (CNWRA), which is our primary contractor and from which a contract for consulting or other assistance, if any, would be originated. Please give me a call, so that I can arrange the details.

Please excuse my tardiness in getting this material to you. Please let me know if I can help in answering any further questions you might have.

Sincerely,

15/

Norman A. Eisenberg
Systems Performance Section
Geosciences & Systems Performance Branch
Division of High-Level Waste Management
Office of Nuclear Material Safety
and Safeguards
