Mr. Marvin Lewis
7801 Roosevelt Blvd. #62
Philadelphia, PA 19152

Dear Mr. Lewis:

As requested, I am enclosing a copy of (1) the "Working Draft #3 of 40 CFR Part 191" (dated April 25, 1991), (2) Draft 40 CFR Part 191 (dated April 26, 1991), and (3) NUREG/CR-5737, "Hydrogeologic Performance Assessment Analysis of the Commercial Low-Level Radioactive Waste Disposal Facility near West Valley, New York." The Draft SECY you referenced on the Environmental Protection Agency's (EPA) 40 CFR Part 191 was issued as SECY 91-218, "Working Draft No. 3 of the U.S. EPA's High-Level Waste Disposal Standards," (July 22, 1991) but has not yet been made available to the public. Upon public availability, it can be obtained by contacting the Public Document Room (PDR). (Information on the PDR is further explained herein.)

Due to our limited office space, the NRC does not keep bulk copies of documents. Therefore, in the future you should contact the PDR directly for any information you may want. For your convenience, I am enclosing a copy of the "Citizen's Guide to U.S. Nuclear Regulatory Commission Information" and a copy of the "Public Document Room Fact Sheet." Also, I have added your name to the list of interested parties in regard to the high-level waste program.

Should you have any questions or require further information, you may contact the PDR at (202) 634-3273.

Sincerely,

for (Original Signed by *Joseph J. Holomek*)
John Linehan, Acting Director

Repository Licensing and Quality
Assurance Project Directorate
Division of High-Level Waste Management
Office of Nuclear Material Safety
and Safeguards
