MEMORANDUM FOR: Those on the Attached List

FROM: John J. Linehan, Director
Repository Licensing and Quality
Assurance Project Directorate
Division of High-Level Waste Management
Office of Nuclear Material Safety
and Safeguards

SUBJECT: DEBRIEFING ON APPLICATION OF INTEGRATED GROUTING TECHNIQUES
IN THE SOVIET UNION

DATE: December 5, 1990

TIME: 11:00 a.m. - 1:00 p.m.

PLACE: One White Flint North
Room 4-B-11

Tilak Verma of HLPD will provide a debriefing and will discuss the information and impressions from his recent trip to the Soviet Union at the above stated time and place. Dr. Verma visited several sites in the Soviet Union at which the Soviets have successfully applied integrated grouting techniques for groundwater flow control in underground openings and mining operations at depths greater than 1000 meters. Application of grouting for toxic waste management was discussed by Dr. Verma with the Soviet hydrogeologists and geotechnical engineers in Moscow, Antratsit and Leningrad.

and your staff
You are invited to this presentation and to participate in discussions on potential application of grouting to waste management problems.
