**SUBJECT: REQUALIFICATION PROGRAM INSPECTION - VOGTLE**

Dear Mr. Gasser:

In a telephone conversation on June 25, 2003, Mr. Ronald F. Aiello, Senior Operations Engineer, and Mr. Ken Holmes, Manager - Operations Training, made arrangements for the NRC to inspect the licensed operator requalification program at the Vogtle Electric Generating Plant. The inspection is planned for the week of August 4, 2003, which coincides with your regularly scheduled requalification examination cycle. The staff at your facility should prepare and conduct the requalification examinations in accordance with your NRC-approved requalification program. It is our understanding that your simulator is committed to ANSI Standard 3.5, 1985.

In accordance with 10 CFR 55.59(c), the NRC has requested that you submit (two weeks prior to the inspection/make ready upon arrival), the material as specified in enclosure one, in order to support the NRC's inspection program needs. Mr. Holmes has been advised of this request and provided with the name and address of the NRC lead inspector assigned to this inspection.

This letter contains information collections that are subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). These information collections were approved by the Office of Management and Budget, approval number Part 55 (3150-0018), which expires on June 30, 2006.
