Subject: Public Comment for nuclear waste landfill proposal

1659

Dear USNRC Secretary,
I am writing to express my strong opposition to distributing nuclear waste in larger amounts into landfills (public comment issue through June 30). Even if no immediate results are noticed, this will over time be an irrevocable public health hazard that will only cost the industry more money to clean up years later once the damage is fully realized. Please stop trying to cut disposal costs at the expense of public health. Your waste is your responsibility and should not cause American lives to be compromised. Thank you for considering my comments.
Sincerely,
Janet Miller
