

DOCKET NUMBER
PROPOSED RULE PR 20
68FR09595

1727

From: Michele Angel <mangel@thymes.com>
To: <secy@nrc.gov>
Date: Thu, Jun 26, 2003 9:27 AM
Subject: Dealing with Radioactive Wastes

Please be responsible about the protection of our planet, our people, and indeed all living things. Either find a way to control and manage these wastes in a safe manner, or PROVE that the wastes already released (and future radioactive wastes yet to be released) have not had any negative effects on the areas and living things surrounding those locations. DO THE RIGHT THING - don't be controlled by corporate or other short-sighted interests.

Sincerely,
Michele Angel
Minnesota, USA

DOCKETED
