Subject: Radioactive Waste

I am writing to protest the release of radioactive waste into the marketplace. This is an unconscionable danger to the public and I protest strongly against it. All radioactive waste should be properly stored and the public protected against its release. I surely don't want it to show up in a pot or pan or belt buckle some day!

Please do all you can to see that this does not happen. It's very distressing that we citizens have to keep on insisting on safe storage! The "market" cannot come first when public safety is at stake!

Please let me know how you will proceed on this matter. Thank you.
