

DOCKET NUMBER
PROPOSED RULE PR 20

68FR09595

From: <redfoot32@earthlink.net>
To: <secy@nrc.gov>
Date: Thu, Jun 26, 2003 12:59 PM
Subject: Support Sierra Club option

1772

Sierra Club is requesting NRC to recapture the radioactive wastes that already have been released. Since the claim is made that these release have had no effect, Sierra asks them to prove it by identifying where the nuclear wastes have gone and checking to see what effects there have been.

I strongly support the Sierra Club position.
Please notify me of your final decision.

Sincerely,

Marvin Rothfusz
