To: <secy@nrc.gov>
Date: Fri, Jun 27, 2003 3:30 PM
Subject: Do Not Release Nuclear Waste

1893

Dear Nuclear Regulatory Commission:

I understand you are considering new regulations for nuclear waste. In my opinion, all radioactive waste and any materials contaminated with radioactivity from the nuclear fuel chain should be kept regulated in specifically licensed facilities with the goal of isolating it from the environment and preventing human (and other species) exposure. There should be no consideration of releasing nuclear waste in limited ways.

Thank you for hearing my opinion.

Mike Hummel
Berwyn Heights, MD 20740
