Dear Mr. Holonich:

Enclosed for your information are ten copies of the first edition of the Yucca Mountain Site Characterization Project (YMPO) Technical Data Base (TDB) Quarterly Report. This document will be updated and released quarterly until it can be merged with the Technical Data Catalog, a document formally transmitted to the U.S. Nuclear Regulatory Commission via a U.S. Department of Energy letter (Roberts to Linehan) dated November 14, 1991.

The TDB Quarterly Report contains a listing of the information currently held in the Site and Engineering Properties Data Base (SEPDB), the Geographic Nodal Information Study and Evaluation System (GENISES), and the Geologic and Engineering Materials Bibliography of Chemical Species (GEMBOCS). The SEPDB, GENISES, and GEMBOCS together compose the YMPO TDB.

Should you have any questions, please contact Sharon Skuchko of (202) 586-4590.

Sincerely,

John P. Roberts
