MEMORANDUM TO: John B. Martin, Director
Division of Waste Management

FROM: Hubert J. Miller, Chief
High-Level Waste Technical
Development Branch

SUBJECT: COMPLETION OF OSP MILESTONE 311211 A,
COMPLETE PREPARATIONS FOR BWIP SCR REVIEW

Pursuant to the above noted OSP commitment, attached is a briefing package describing the specific products, schedules and overall program approach for completion of site characterization report reviews. We reviewed this package with ELD (9/7/82), OSP (9/7/82), RES (9/15/82) and DOE (9/14/82). Comments from these groups are being incorporated into our review process. Also, we are revising our "Review Plan for Site Characterization Reports" (attached) which provides the details on how NRC will review each SCR.

I recommend that we brief Mr. Davis on our plans, especially with regard to our review of the BWIP SCR beginning in November. We are already working with Washington State (Dave Berrick, Environmental Policy Center and others) and other groups in the State on the approaches being taken in conducting our site characterization reviews.

Handwritten initials
