

DOCKET NUMBER
PROPOSED RULE PR 20
68FR09595

From: <Shinamaste@aol.com>
To: <secy@nrc.gov>
Date: Sun, Jun 29, 2003 3:34 PM
Subject: Nuclear Waste Disposal

2404

I am writing to express my opinion that no level of nuclear waste is safe and should be incorporated into building materials etc.

Nuclear waste should be disposed of *only* at licensed radioactive waste dumps.

Better yet... accurately report to the public where nuclear waste has already been dispersed, and recapture all nuclear waste that has been deregulated to date.
