2000 Day Hill Road
Windsor, Connecticut 06095-0500

Docket No.: 165-422B/0303-17100

Dear Mr. Conant:

At our meeting dated June 11, 2003 you requested input from the Department of Environmental Protection's (DEP), Division of Radiation (DOR) to assist you in development of Derived Concentration Guidance Limits (DCGL's), utilizing the Resident Farmer Scenario. In response to that the request, the DOR sent you a letter dated June 18, 2003 outlining our initial minimum requirements for input parameters for dose modeling scenarios. The DOR is still awaiting written proposals from ABB in response to our June 18, 2003 correspondence.

The DEP feels at this time, that communications regarding, such important matters as this should be conducted in writing. We look forward to meeting with you on July 2, 2003 and moving to a resolution of our issues.

Sincerely,

A handwritten signature in dark ink, appearing to read "Edward L. Wilds, Jr.", written in a cursive style.

Edward L. Wilds, Jr. Ph.D.
Director, Division of Radiation
