SUBJECT: RESPONSE TO MONTHLY PROGRESS REPORT FOR MAY 1986 (FIN B6985)

Dear Mr. Rosselle:

We have reviewed the monthly letter progress report for May 1986 and have the following comments.

As indicated in our telephone conversation and meetings, we agree that the problem set to be modeled by the ADINA code should be curtailed. No further attempts should be made to run Problem 5.1 or 5.3 using ADINAT and ADINA. Rather they should be replaced by the two - dimensional Problem 5.2. Nor should Problem 6.1, which requires a temperature-dependent creep law be modeled with ADINA. We are analyzing the impacts of curtailing the problem set for ADINA and will summarize the evaluation in a separate letter.

The action taken by this letter is considered to be within the scope of the current contract NRC-02-81-026. No changes to cost or delivery of contracted products are authorized. Please notify me immediately if you believe this letter would result in changes to cost or delivery of contract products.

Sincerely,

*Original Signed By*
