Attn: Rulemaking & Adjudications  
Staff

Sirs:

I am writing in OPPOSITION  
to the outrageous proposal  
to "recycle" radioactive  
waste.

Under no circumstances  
should nuclear waste be  
deregulated, dumped in un-  
licensed facilities, or allowed  
into general commerce.

The scope of your rulemaking  
should be limited to options  
supporting the above prohibitions.  
Yours truly,  
Alice Gary
