Background

The Federal Claims Collection Standards (4 CFR 102.13 (d)) state that an "agency shall assess against a debtor any charges to cover administrative costs incurred as a result of a delinquent debt. Calculation of administrative costs should be based upon actual costs incurred or upon cost analyses establishing an average of additional costs incurred by the agency in processing and handling claims against other debtors in similar stages of delinquency." The Chief Financial Officers Act of 1990 (31 U.S.C.902 (a) (8)) requires agencies to perform a biennial review of fees and other charges imposed. Accordingly, on a biennial basis, the NRC is required to review the charges assessed against delinquent debts.

The NRC is currently billing delinquent debtors at a rate of \$5 per month for each month of the delinquency. In addition, the NRC charges each delinquent debtor \$130 when an order is issued. These administrative costs were based on the September 30, 2001 biennial review.

Scope

The scope of this work order is to perform a cost analysis of both direct labor costs and other costs related to the delinquent debt billing process. The analysis should cover the six processing steps in the delinquent debt process.

Objective

Based on the cost analysis of charges assessed to debtors to cover administrative costs incurred because of delinquent debts, the contractor should provide recommendations to assist the NRC in determining the amount of charges that it should assess against delinquent debtors.

Work Requirements

The contractor shall provide qualified personnel to complete the following tasks:

1. Review the legislative and regulatory requirements of the revised Federal Claims Collection Standards related to administrative costs which are recoverable by NRC.
2. Utilize cost finding techniques consisting primarily of interviewing NRC personnel to determine the direct labor, indirect costs, and other costs, related to NRC's administrative costs. (Other costs would include fringe benefits, telephone charges, postage, supervisory review, and costs by other offices such as OGC and the Regions.)

Work Requirements, continued

3. Prepare a report on the results of the review including the estimated costs for each phase of the process for those areas identified.

Level of Effort

The level of effort is estimated to be at 30 hours for partner and 120 hours for manager.

Period of Performance

The period of performance is June 12, 2003 through August 31, 2003.

Deliverables

The contractor shall provide a draft report by July 18, 2003, and a final by July 31, 2003.

Meetings

The contractor shall attend approximately five (5) status meetings at NRC's Two White Flint North Building located at 11545 Rockville Pike, Rockville, Maryland. The date and time of each meeting will be coordinated between the contractor and the NRC Project Officer or designated alternates.

NRC Furnished Materials/Equipment

The NRC shall provide the contractor with the following items for use under this work order:

- Computer reports, financial and accounting documents, and other documentation relevant to this work order.
- Personal computers, calculators, telephones, copy and facsimile machines will be provided to certain on-site contractor staff support of this work order.
